## **LA BÚSQUEDA**

Si por algo me puede parecer interesante este pdf para alguien, es para la gente joven que quiere ser artista y quizás le cueste encontrar su propia voz.

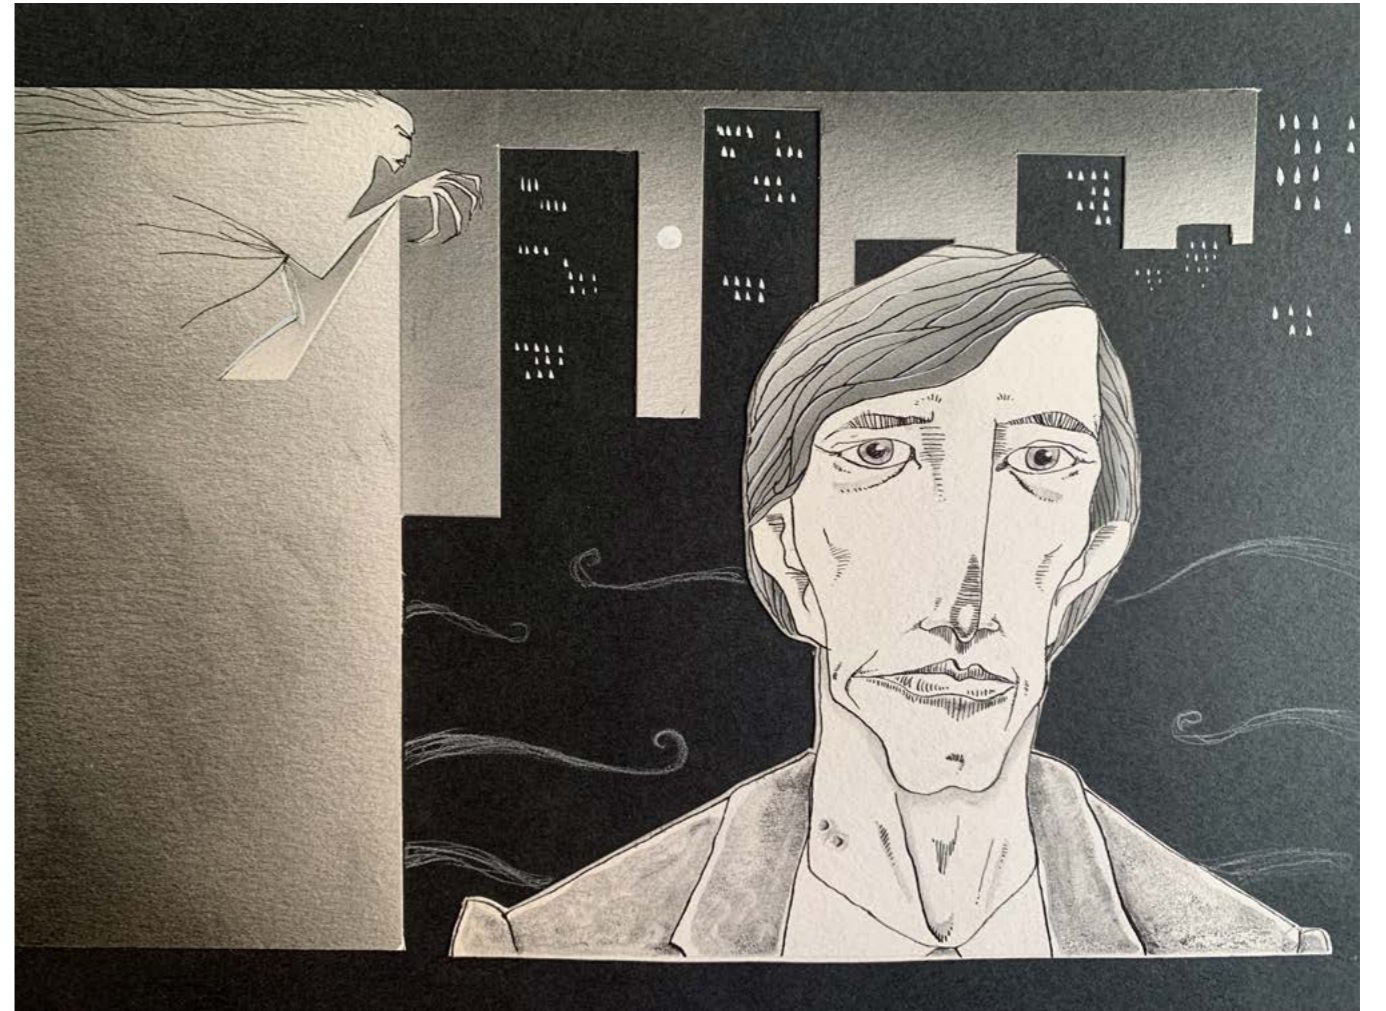

No creo que haya habido nadie en el mundo que le haya costado más que a mi, y de hecho aún me cuesta, y no sé si nunca dejará de pasarme del todo.

Aquí encontraréis todo tipo de bocetos en cuadernos de diferentes épocas desde que dibujo para que veáis lo perdido que he estado, y al mismo tiempo el hambre por descubrir estilos y diferentes caminos que tenía.

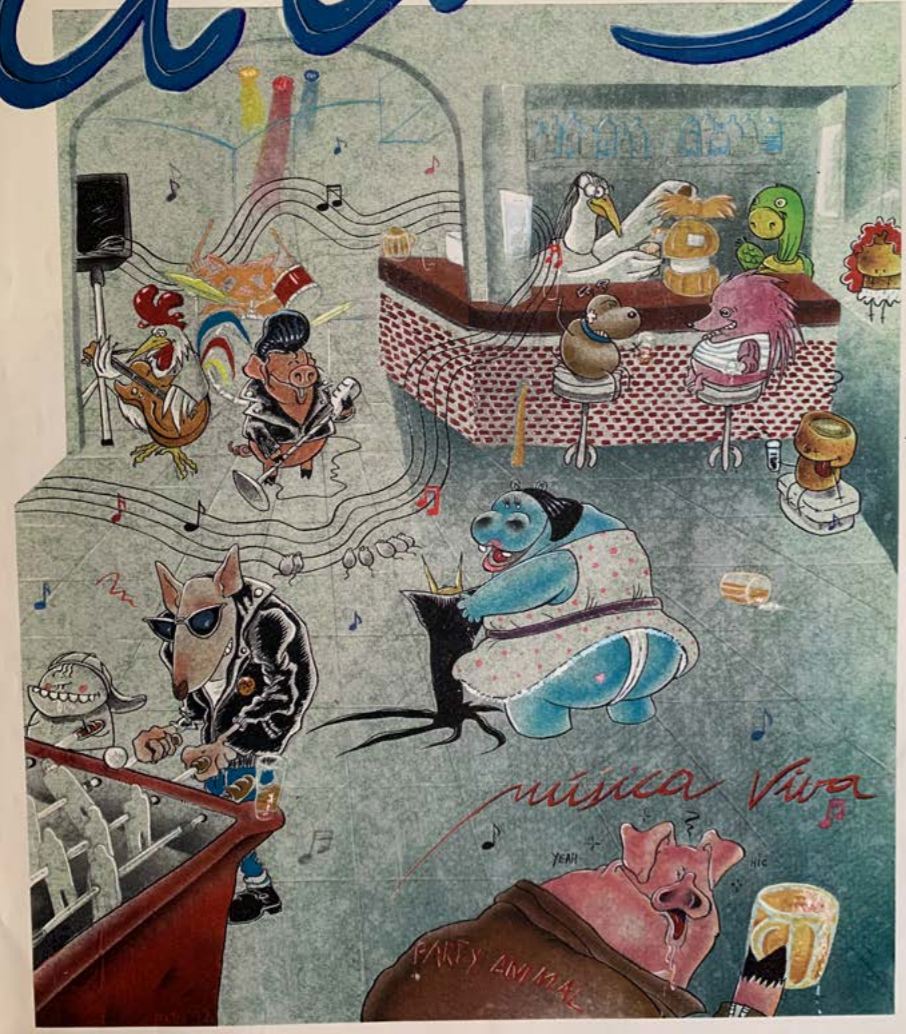

Animo a los artistas que estén en ese proceso a no desfallecer y disfrutar el proceso en cada momento, eso si ya no tienen claro que lo suyo es el manga... glups.

Casi todo lo que hay aquí pertenece a la época en que aun no era “profesional”, si no solo un estudiante que aspiraba a hacer algo con mi supuesto talento.

**AVISO:** La cantidad de diferentes estilos puede llegar a resultar alarmante.
